PREFACE

This issue of International School Building News is entirely given up to the second course on the Educational Aspects of School Building which was held under the auspices of the Council of Europe in Leiden (Netherlands) in January 1969. This course forms an integral unit together with the first course which was held in May and June 1968 in Ottenstein (Austria). A report and summary of the main lectures of the first course were published in issue 4/1968/No.2 of International School Building News. The present number contains a short report of the interesting discussions that took place during the second course in Leiden. A full report of both courses will be published in due time.

The report of the second course was formulated with the valued assistance of the Council of Europe, and of Mr. E. Pearson, Rapporteur General, as also of those experts who delivered lectures during the second conference: Mrs. Birgit Rodhe, Mr. E. Brunswic, Mr. H. Mastmann, Mr. M. Hulteberg, Mr. M. Renard Mr. J.D. Kay.

We wish to thank them herewith for their co-operation.
